

**CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE**

April 11, 2000

S. 1849

White Clay Creek Wild and Scenic Rivers System Act

*As ordered reported by the Senate Committee on Energy and Natural Resources
on April 5, 2000*

Assuming appropriation of the authorized amounts, CBO estimates that implementing S. 1849 would cost the federal government \$150,000 annually beginning in fiscal year 2001. Because the bill would not affect direct spending or receipts, pay-as-you-go procedures would not apply. S. 1849 contains no private-sector or intergovernmental mandates as defined in the Unfunded Mandates Reform Act and would impose no significant costs on state, local, or tribal governments.

S. 1849 would designate several segments of the White Clay Creek in Delaware and Pennsylvania as recreational or scenic rivers under the Wild and Scenic Rivers Act. The bill also would direct the National Park Service to offer aid to the White Clay Creek Watershed Management Committee, in the form of technical or financial assistance, to help that entity implement a management plan for the newly designated river segments. Such aid could not exceed \$150,000 annually.

The CBO staff contact is Deborah Reis. This estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
